Rebulet 11/7/50 to Louisville, carbon copy for Los Angeles, with an addendum for Los Angeles.

To answer the question put by the Bureau:

(1) Arrangements have been perfected to furnish all [REDACTED] for an indefinite period, whether they be coded or in plain text. This could be carried on even in the event the investigation was discontinued in this Division.

(2) Provision has not been made for coverage of [REDACTED]

According to Mr. [REDACTED] of the [REDACTED] in Los Angeles, the handling or monitoring of [REDACTED] would necessitate the services of several [REDACTED] clerical personnel to watch for and clip from the tape any messages which might be addressed to [REDACTED]. This is not a difficult thing to do, but it would have to be a specific assignment. Mr. [REDACTED] is perfectly willing to put such a system into effect; however, in view of the nature of this investigation it was not felt that such a procedure should be undertaken at this time.

As a matter of information to the Bureau, Mr. [REDACTED] has advised SA PHILIP J. REILLY of this office that the file of [REDACTED] that is the original hard copy messages, can and will be retained by [REDACTED] for an indefinite period of time.

Unless the Bureau deems otherwise, there will be no attempt to arrange for the processing of [REDACTED] however, it is believed that the problem of controlling this incoming traffic can best be achieved by [REDACTED]

It is felt that with such coverage by all of the offices concerned a fairly good percentage of all outgoing and incoming [REDACTED] traffic can be controlled with, of course, the exception of messages from private individuals.

As you apparently realize, the material can be divided basically into two groups. One of these groups is for use in handling items to and from Los Angeles, while the second group pertains to the 100 separate sheets mentioned in the last sentence of the second paragraph of your letter. This latter group is for handling items destined for several different points and it can be estimated that this material will be exhausted in approximately 3 to 4 months. The material mentioned in the first category mentioned above should not be exhausted in that length of time.

There does not appear to be any necessity for further investigation to identify the man from Hollywood inasmuch as there is no evidence of connection with the government or sensitive agency. It is possible the man is LEON BRIS, author of the book, "Exodus", which was made into a film.

The telephone number [redacted] is apparently in error as it is listed to a private residence in Beverly Hills, to a person with a dissimilar name. Information contained in an attachment to this letter reflects that in 1961, [redacted] owned a B-26 aircraft which he allegedly intended to use to

[redacted]

He was born [redacted] in Manila, Philippines. He entered the U.S. in 1941 and was naturalized on October 8, 1947. Prior to his naturalization he utilized the name of [redacted]. He received his Bachelor of Science degree from the University of California at Berkeley in 1949 and his Master of Science degree from the University of California at Los Angeles in 1950.

He has been employed as [redacted] since July 1950. He is currently [redacted] and has a Top Secret clearance. In his capacity [redacted] he is in charge of [redacted] conducted by [redacted]. Also, for the past several months he has filled in for [redacted] corporate [redacted] of [redacted] because of [redacted]'s ill health. He noted that within the past month, while filling in for [redacted] he had travelled to several North Atlantic Treaty Organization (NATO) nations, introducing and selling them the updated version [redacted].

He further related that during the spring of 1969 one [redacted] at [redacted] approached him and invited him to join an organization called California Israel Committee for Trade and Technology, Southern California Section (CICTT-SCS). After due deliberation and after having advised the security and corporate heads of [redacted] he joined the organization [redacted]. He noted at the same time, however, that because his time has been taken up by not only his duties [redacted] he was forced to relinquish his position as well as his active membership within the organization. According to [redacted], the CICTT-SCS was the "brain child" of [redacted]. It came into existence in the early spring of 1969.

The CICTT-SCS, which is incorporated under the laws of California and the existence of which the U.S. Department of State was advised of in June 1969, has as its purpose the aiding of the technological development of the State of Israel.

~~SECRET~~

~~SECRET~~

[REDACTED]

The above-stated purpose is carried out through the arranging of visitations with local companies for Israeli engineers to discuss progress in their field, within security limitations; recommending "would be" vendors whose products are most reliable; evaluating and rendering critique of analysis on tests carried out by Israeli engineers; interviewing prospective engineers who are interested in a position with an Israeli technical industry; and providing reference of public domain literature which would assist in the solution of certain technical problems for which assistance was solicited.

The CICTT-SCS has currently a membership of approximately 600, of which, however, only 300 individuals indicated willingness to actively participate in the program and who are supporting the organization by paying their annual \$10.00 membership dues. Any person qualified in some technical field of endeavor and who is interested in participating in the activities of CICTT-SCS may become a member. Any person donating \$200.00 to the organization is designated as a "sustaining" member for one year. Any person donating \$500.00 to the organization shall be designated as a "patron" member for one year. [REDACTED] pointed out that from the inception of the organization all of its members and prospective members were told that even though their sympathies may lie with the Israel nation, their undivided loyalty must be with the U.S. and must not compromise the best interests of the U.S. by furnishing any type of classified material.

The CICTT-SCS, in order to create interest in individuals to join its ranks, is conducting membership meetings approximately every six weeks where they have well known speakers from the Jewish financial and scientific community as well as from distinguished persons from Israel. In addition, some of their meetings were addressed by members of the Israeli diplomatic corps assigned to the U.S.

The CICTT-SCS has a sister organization in San Francisco, California. This organization, which has approximately 75 members, headed by one [REDACTED] with several splinter groups in several other U.S. cities. These splinter groups, however, are only loosely organized and their activities consist thus far of making inquiry of CICTT-SCS as to its operations and how they may be of assistance.

~~SECRET~~

[REDACTED]

~~SECRET~~

The CICTT-SCS has relied completely for funds on voluntary contributions from sympathizers and annual dues collected from its membership. [REDACTED] indicated, however, that to the best of his knowledge, at the time of inception, the organization did receive \$10,000 from [REDACTED], who [REDACTED] described as a [REDACTED] philanthropist active in the investment and economic development in Israel. In addition, the organization has received approximately \$3,000 from the Israel aircraft industry for the defraying of general expenses.

Until recently CICTT-SCS had maintained an office at 11526 Burbank Boulevard, North Hollywood, California; however, even though all members contributed their services free, the CICTT-SCS was forced, because of limited funds, to close its office. Its business is now being conducted from [REDACTED] with the aid of [REDACTED], the only paid employee of CICTT-SCS.

[REDACTED] related that the CICTT-SCS functions in the following manner:

b6
b7C

Whenever Israeli private industry or scientists are interested in the answer to a certain question, they submit an inquiry to the CICTT Israel director, [REDACTED], in Israel, who after screening and eliminating duplications, transmits the question to [REDACTED]. [REDACTED] noted that prior to establishing the CICTT Israel office, the questions were submitted to the Israeli Government, who in turn turned them over to the Israeli diplomatic corps assigned to the U.S., who in turn submitted the question to members of the executive committee of the CICTT-SCS through either Dr. [REDACTED] Scientific Counselor, Israeli Embassy, Washington, D.C., or [REDACTED] Consul, Israeli Consulate, Los Angeles. In this connection [REDACTED], as well as other members of the CICTT executive committee, met occasionally with [REDACTED] and once with [REDACTED] accompanied by [REDACTED] in April 1969. However, when the inquiries became too numerous, necessitating practically weekly get-togethers between members of the CICTT-SCS executive committee and [REDACTED] or [REDACTED] then the CICTT Israel office was set up.

~~SECRET~~

~~SECRET~~

b6
b7C

[redacted]
[redacted] in turn, after determining with the aid of the IBM data bank who the member best suited for answering a particular question is, forwards it to that member. The member, who works entirely without compensation, prepares a thorough answer to the question and submits it to the executive board of the CICTT-SCS for approval and final screening, making sure that it only contains non-classified material. Thereafter [redacted] forwards the answers to the CICTT Israel office.

[redacted] indicated that as far as he is aware, at no time while he was an active member of CICTT-SCS did the organization furnish anything other than non-classified material and that this material was furnished to the Israeli private industry and its individual citizens. No information was furnished to the Israeli Government nor did the organization or any of its individual members ever receive any compensation from the Israeli Government for their efforts. Further, [redacted] stated that during this same period no attempt was made by any member of the Israeli Government to obtain classified material or to recruit any member of the CICTT-SCS for any intelligence purpose.
